July 25 - Cyber Camp: STEAM

Explore and discover the new STEAM tools available in each building. Participants will have hands on experience with a variety of robotics, coding, electronics, and 3D Modeling tools. This may include Ozobots, Little Bits, Cubelets, 3D Printing, Dash and Dot, Code Academy, and more. Come to the July 26-28 Cyber Camp Technology and PBL (Problem Based Learning) Camp to develop a lesson with the fun and engaging tools.

July 26-28 - Cyber Camp: PBL
(Problem Based Learning and Technology)

A strong, authentic, open-ended, and content-rich problem can drive students deep into the curriculum while providing them with a real world experience. In this 3-day workshop, participants will design a technology infused, problem-based, unit that provides all students with access to rich, rigorous, and relevant learning experiences.

Special Notes:

1. Participants are encouraged to attend the July 25th, Cyber Camp: STEAM, and integrate the STEAM tools into their unit. However, attendance on July 25th is not required.

2. Participants must come with a unit they would like to redesign.

3. Any curricular areas and any grade levels are welcome to the PBL camp!

CYBER CAMP 2016
STEAM, PBL, and GAFE

August 29th - GAFE Drop In Day
(Google Apps for Education)

This year, each building is scheduling a Google Drop In Day with 1-hour workshops on Google Classroom and GAFE Tools. There will also be an open session where you can come with your project, ideas, or questions and have them answered by your Building Technology Consultant.

Classes will be held in each building and the schedule is:

- 9:00-10:00   Google Classroom

- 10:00-11:00   GAFE Apps (docs, sheets, presentation, email, forms, etc.)

- 11:00-1:00   Open Q/A

- 1:00-2:00   Google Classroom

- 2:00-3:00   GAFE Apps (docs, sheets, presentation, email, forms, etc.)

REGISTRATION
To register for any workshop, click here: https://goo.gl/A1PU21

COMMUNICATION
Please note that all communications regarding Cyber Camp 2016 will be sent to your Byram Hills email address.

CANCELLATIONS
If at a later time you need to cancel, please email Mattie Garcia, magarcia@byramhills.org. Please remember that there may be wait listed participants so cancel a workshop as soon as you can. Also, note that once you cancel a workshop, someone else may have been given your spot.

WORKSHOP REGISTRATION AND STIPEND APPROVAL
Stipends will be allocated via lottery. You will be notified before Memorial Day if you have been approved or wait listed for a workshop, and if your stipend has been approved.

QUESTIONS
Please contact Mattie Garcia, magarcia@byramhills.org or via phone at 914-273-4183 ext. 1966, with any registration questions. Contact your Building Technology Consultant with any questions regarding workshop instruction.
