General Academics at a College/University

- [American University](#)
 - Grades 9-12
 - This summer, take advantage of the opportunity to learn professional skills from American University's expert faculty! You will use Washington, DC as your classroom and laboratory for our experiential learning courses in communication, international studies, and politics. Get to know what AU has to offer, and discover your passion!
- [Babson College](#)
 - Grades 10,11

- Babson’s Summer Study is a residential program for rising high school juniors and seniors that gives you real-world experience while building your business knowledge and entrepreneurial skills.
- [Boston University](#)
 - Grades 9-12
 - We invite you to choose from our portfolio of exciting and challenging summer high school programs. Each program offers the opportunity to explore new subjects and college life—while making friends with fellow students and participating in social activities in Boston and on campus. Join other motivated high school students from 50 states and 87 countries to experience a great introduction to college life and academics.
- [Brandeis University](#)
 - Grades 10,11,12
 - In the spirit of Brandeis University's tradition of excellence, Brandeis Precollege Programs offers outstanding residential experiences for exceptional high school students from around the world. We provide students with the opportunity to explore academic and artistic pursuits in connection with a diverse body of individuals who share their commitment to building a global community.
- [Brown University](#)
 - Grade 9-12
 - Experience college, prepare for academic success, and make new friends from around the world in Brown Pre-College Programs. Throughout the summer Brown offers multiple sessions 1-7 weeks in length, and more than 300 courses to choose from – on campus, online, and abroad.
- [UCLA](#)
 - Grades 9-12
 - During the summer, UCLA opens its door to high school students as well, and we invite you to come and study in a welcoming environment that appreciates diversity and global perspectives.
- [UCLA](#)
 - Grades 9-12
 - The UCLA Game Lab Summer Institute introduces high school students to game-making as a form of artistic practice, teaching them the techniques and tools that will help them develop analog and digital games that reflect their own creative voice and vision. No previous game-making skills are required, but students with an interest in games and in the visual arts, in particular, will find the curriculum especially stimulating and rewarding. Students in the program develop a solid aesthetic and technical foundation in various aspects of game design—but just as importantly, they begin learning how to express their own, personal ideas through game-making and game art.
- [UC San Diego](#)
 - Grades 9-12
- [Carleton College](#)
 - Grade 10

- Carleton College is honored to host an inspiring summer program designed for the best and brightest college-bound students representing high schools across the country. The Carleton Liberal Arts Experience (CLAE) will select 52 high school students who have just completed their sophomore year and bring them to Carleton, all expenses paid, for a one-week summer program. The CLAE program introduces the strengths of a liberal arts education through an array of courses in science, art, social sciences, and technology.
- [Carnegie Mellon University](#)
 - Grades 10,11
 - Our summer Pre-College programs will show you what life at Carnegie Mellon is all about - from the classroom to what's happening on weekends. You'll meet people from all over the world, be inspired by our world-renowned faculty, take part in the excitement of campus and have the opportunity to explore the city of Pittsburgh.
- [University of Chicago](#)
 - Grades 9-12
 - Immerse yourself in a college experience where you will raise your interests and abilities to new levels. Ranked 3rd in the U.S. and 10th in the world for undergraduate education, the University of Chicago offers you the chance to learn from scholars, researchers, and educators who are transforming the way we see our world. Our beautiful campus offers you opportunities to read for class under a tree on the quads, chat with friends at a student-run coffee shop, or people-watch at a sidewalk café. We're just a short bus ride from the city center and all that summer in Chicago has to offer, whether your tastes run to finding the best bubble tea in Chinatown, biking along the lakefront to your favorite beach, or searching for retro fashion finds in Pilsen. Summer at UChicago means never running out of things to learn, do, and enjoy.
- [Columbia University](#)
 - Grades 9-12
 - Take an intensive course especially designed for outstanding high school students, attend Columbia University classes with undergraduate students, or live and study in Barcelona or Jordan for three weeks.
- [The Cooper Union](#)
 - Summer Stem Program
 - Summer Writing Program
 - Summer Art Intensive
 - Introduction to Architecture
 - Outreach Pre-college Program
- [Cornell University](#)
 - Grades 10-12
 - The award-winning Summer College Programs for High School Students offer talented high school sophomores, juniors, and seniors the opportunity to study at Cornell for three or six weeks, earn an average of three to six college credits, take college courses with leading Cornell faculty members, explore careers and majors, attend admissions workshops, and much more.

- Architecture, Art, Design, and Fashion, Business, Hospitality, Leadership, Debate and Literature, Engineering and Robotics, Government, History, and International Relations, Psychology, Research and Science, Social Change and Sustainability, Veterinary Medicine and Animal Science
- [University of Delaware](#)
 - Grades 10,11
 - The Edge summer college program at the University of Delaware offers exclusive opportunities to engaged and talented high school sophomores and juniors across the country. Students have the chance to live and learn on one of the most engaging college campuses on the East Coast. The UD Edge summer college program prepares high school students moving into their junior or senior year for a future as a successful college student. By emphasizing academic excellence, practical skill building and student leadership, Edge offers you the challenge, independence and excitement of a learning experience that can only be found at a top national university.
- [Drew University](#)
 - Grades 11,12
- [Drexel University](#)
 - Grades 9-12
 - Drexel's summer academic programs are open to highly motivated high school students who wish to explore what a university-level program is all about. Workshops are led by Drexel faculty and utilize Drexel's labs, facilities, and the city of Philadelphia's many resources.
- [Duke University](#)
 - Grades 9-12
 - We invite you to imagine yourself at Duke this summer if you are: seeking to gain academic credit from renowned Duke faculty or to learn to be a Leader and Global Citizen through personal enrichment courses; hoping to spend your summer enjoying residential activities such as ball games, outlet shopping, dances, talent shows, and more; excited to prepare for college and create an international network of peers.
- [Emerson College](#)
 - Grades 9-12
 - Pre-College offers challenging one-, three- and five-week summer programs for high school students. Programs are intensive, fun, and designed to teach students competitive, practical skills in one academic area of communication and the arts.
 - Acting, Communication Disorders, Creative Writers, Digital Filmmakers, Esports, 16mm Filmmakers, Game Design, Journalism, Musical Theater, Politics, Activism & Leadership, Sports Communication, Stage Design.
- [Emory University](#)
 - Grade 10,11
 - The Emory Pre-College Program is a summer academic program for high school students. It gives college-bound rising juniors and rising seniors an exciting glimpse of academic and residential life at a top-ranked national university. High

school students may explore topics with professors who are the leading experts in their fields, enroll in classes with college students, and earn transferable college credit.

- [Fordham University](#)
 - Grades 11,12
 - The Pre-College program is a selective commuter program designed to provide students with experience, connections, and knowledge from participation in an undergraduate college course. Select college-level courses are available to Fordham's Pre-College scholars and will allow students the chance to earn college credits while sharing the classroom with current undergraduates and Fordham faculty.
- [Georgetown University](#)
 - Grades 9-11
 - Live on campus, attend classes side-by-side with college students, and learn from distinguished faculty and prominent Washington, D.C., area guest speakers.
- [George Washington University](#)
 - Grades 9-12
 - We offer a variety of on-campus courses during the summer, as well as study abroad opportunities, in-depth institute courses, flexible online and evening classes and programs for visiting international and high school students.
- [Gettysburg College](#)
 - Grades 9,10,11
 - Subjects include psychology, creative writing, Eisenhower Institute's Civil Engagement or Civil War Era Studies as well as a variety of sports camp
- [Hampshire College](#)
 - Grades 10,11
 - Experience Hampshire College while you're still in high school. Get a sense of our innovative approach to learning and what life is like on Hampshire's campus during our 2-week precollege sessions every summer in July. Precollege participants live in the dorms, eat in the dining commons, and are immersed in rigorous and exciting fields of study. Led by current Hampshire faculty, recent graduates, and experienced alumni, our precollege programs are intended for rising high school juniors and seniors.
- [Harvard University](#)
 - Ages 15-18
 - Our summer programs for high school students are designed to prepare you for that all-important next step—both academically and socially—paving the way for a successful college experience. Here, you will expand your worldview, meet new people from all over the globe, test-drive potential majors, gain valuable knowledge and skills, and explore Boston—one of America's most vibrant and historic cities—amid a community of supportive peers and advisors.
- [Ithaca College](#)
 - Ages 15-18
 - In Ithaca College's residential pre-college summer program, high school students experience college life and college-level courses while living in a safe

environment. The Summer College for High School Students has two program offerings, each with courses designed and reserved expressly for pre-college students.

- [Johns Hopkins University's Center for Talented Youth](#)
 - Grades 9-12
 - CTY's summer programs offer bright students the opportunity to engage in challenging academic work in the company of peers who share their exceptional abilities and love of learning. While the focus is on rigorous academics and learning, the social experience that results from bringing these students together is an integral part of the program.
- [Marist College](#)
 - Grades 10,11
 - Expand your academic and creative aspirations this summer at Marist College. Students entering their junior and senior year of high school as of this summer are invited to attend one of the Summer Institutes at Marist College - ranked one of the "Best 373 Colleges and Universities," and "25 Most Connected Campuses" by the Princeton Review. You'll learn from experienced professionals and talented faculty, while spending two to four weeks in your choice of location: the heart of the historic Hudson River Valley, the birthplace of the Renaissance, or both!
- [UMass Amherst](#)
 - Grades 9-11
 - Pre-college programs at UMass combine all the major elements of college, including great academics, living in a residence hall, and eating in our award-winning dining commons. Of course, it takes a little help to adjust to life on a college campus, so we have great live-in program assistants who are specially trained to help you get used to a new environment, both geographic and social. We have lots of great events in the evenings and on weekends that help you connect with other pre-college students.
- [Miami University, Ohio](#)
 - Grades 10,11
 - The Summer Scholars Program provides a rich, early college experience for academically-talented rising high school juniors and seniors from across the globe. Students will join an engaged community of learners for an intense, two-week program in which they do the following:
 - Participate in challenging, immersive academic modules centered on a specific topic or area of interest.
 - Learn alongside our leading faculty and professional experts.
 - Reside in a "living-learning" community with other Summer Scholars participants and get a real preview of college life — live in a residence hall, eat in our award-winning dining halls, and enjoy campus facilities such as our Recreational Sports Center and Goggin Ice Center.
 - Attend special workshops on topics such as the college admission process and financial assistance. Get an insider's look at the college application process — learn about ACT/SAT test preparation, how to find the right

college fit, how to write the best college essay, as well as get an introduction to financial aid and scholarships.

- Participate in special excursions to local attractions, such as Kings Island, and a Dayton Dragons game.
- Receive priority consideration for merit scholarships and for selection to top programs such as the University Academic Scholars Program, and the University Honors Program.

- [The New School](#)

- Grades 9-12
- Develop a talent or advance in study while experiencing life in a university setting. The New School offers summer college courses for high school students as well as programs for children four and up in music, art, and design year-round in our weekend and after-school programs. Students leave prepared to enter top art and design, performing arts, or liberal arts colleges; gain greater confidence in their strengths and abilities; and make connections that last for life

- [NYU](#)

- Grades 9-12
- 6-week, 1-week and everything in between, NYU's varied array of High School Programs offer flexibility and options that can be tailored to your individual needs and schedule. Application processes, requirements and deadlines are varied; as are housing and financial aid offerings. Be sure to visit each specific website to see which program is right for you.

- [Northeastern University](#)

- These pre-college programs are designed for talented high school students in the U.S. and around the world who want to give themselves an edge. We offer a choice of innovative programs led by Northeastern's internationally acclaimed faculty. Accelerate programs are hosted on our campuses, allowing you to experience true collegiate learning in a world-class environment. Try something new, or challenge yourself to rise to a new level in an existing area of interest.

- [Northwestern University](#)

- 15-17 years old
- High school students can get a taste of Northwestern academics and athletics through the College Preparation Program, Center for Talent Development, National High School Institute, Wildcat Sports Camps and more!

- [University of Notre Dame](#)

- Grades 10,11,12
- From the time you first set foot on campus, the memories make themselves. It happens when you engage in intellectually stimulating classes, and throw yourself into nearly two centuries worth of academic, social, and spiritual tradition. It happens when you enroll in one of our four pre-college programs.

- [Ohio State](#)

- Grades 9-11
- Participants are enrolled on a single, intensive course during their two-week stay on campus. Buckeye Precollege Summer Institute courses are not for credit, though the instructional hours are equivalent to that of a two-credit

undergraduate course. The non-credit structure allows students to explore new topics and challenge themselves academically without worrying about grades. Students who successfully complete a Summer Institutes course will be provided with a certificate of completion.

- [University of Pennsylvania](#)
 - Grades 9-11
 - Penn delivers the challenge of an Ivy League curriculum to academically talented high school students seeking a pre-collegiate experience. Explore Penn's historic campus, engage with leading faculty and build intellectual connections with accelerated three- or six-week Penn Summer High School Programs.
- [Quinnipiac University](#)
 - Summer is the best time to accelerate progress toward achieving your academic, professional and personal goals. This is why Quinnipiac is offering a growing list of engaging summer programs, camps, undergraduate courses and more. All are designed to help a diverse group of people of all ages explore their passions supported by our faculty, staff and students across all 8 schools and the College of Arts and Sciences.
- [Rensselaer Polytechnic Institute](#)
 - Grades 10,11
 - Since 1978, PREFACE has provided a pre-college introduction to the different types of engineering, allowing students to understand what engineers do and what it takes to become an engineer. PREFACE students are exposed to today's global challenges and learn to use engineering design and manufacturing processes to develop possible solutions.
- [University of Rochester](#)
 - Grades 9-12
 - At the University of Rochester, students pursue only what they're interested in. With Rochester's Pre-College Programs, high school students get that same freedom. For over twenty-five years, these programs have welcomed students from around the globe to explore the University and its resources to broaden their educational experience, sharpen academic skills, and help them learn more about who—not just what—they want to be.
- [The Rockefeller University](#)
 - Ages 16+
 - Our goal is to engage students with hands-on, mentored science and to run workshops to provide teachers with the tools they need to instill a passion for science in their students.
- [Rutgers University](#)
 - Grades 9-12
 - Pre-college programs enhance college awareness, provide extracurricular enrichment and increase the academic preparedness of students currently attending elementary, middle, and high school.
- [Skidmore College](#)
 - Grades 10-12

- By enrolling in the Pre-College Program high school students get a head start on college life by living and learning with other exceptional students from across the country and around the world. Along with their diverse backgrounds and experiences, all share a common interest in exploring the academic and social aspects of college life—discovering what it's like to take courses with college students, to live in a college residence hall, and to meet new people from places near and far.
- [Smith College](#)
 - Grades 9-11
 - Experience precollege programs that offer limitless ways to explore the world. You will join more than 200 other high school girls who want to pursue their academic interests in and out of the classroom, strengthen their college applications and meet other motivated and ambitious college-bound young women. Designed by Smith's professors and staff, the program not only gives you an inspiring learning experience, you also earn a recommendation from Smith faculty to use in your college applications. Inside the classroom, a hands-on, collaborative learning environment lets you directly engage with world-class scholars who help you pursue your passions and develop new skills. Outside the classroom, enjoy Smith's beautiful setting, live in a house on campus, make new friends and have a great time joining in on lots of fun activities.
- [Stanford University](#)
 - Ages 16-19
 - Stanford High School Summer College is a selective program that grants high-achieving students, ages 16 to 19, access to Stanford University undergraduate courses. This program offers an eight-week college experience that provides academic, social, and intellectual opportunities not found in a high school classroom. High School Summer College participants enroll as visiting undergraduates in Stanford's Summer Quarter and take the same courses, taught by Stanford faculty members, as matriculated Stanford students.
- [Stevens Institute of Technology](#)
 - Grades 11,12
 - What distinguishes our pre-college programs from others is that you get to *create* something from start to finish: a business plan, a video game, an investment portfolio, a short animation. Yes, you'll leave with a stronger college application, you'll try out a potential major, get a taste of what campus life is really like and make some new friends. But: designing your own portfolio project with cutting-edge technology...in state-of-the-art facilities...alongside world-renowned experts, CEOs and inventors...while exploring New York City? Only at Stevens.
- [Syracuse University](#)
 - Grades 9-11
 - Summer College has been a part of Syracuse University for more than 50 years. We're excited to be able to work with incredible students, talented faculty, and passionate staff members. While the central Summer College office is comprised

of just a few members, we work extensively with offices and departments across campus to ensure that the student experience is safe, fun, and positive.

- [Tufts University](#)
 - Grades 9-12
 - You are a talented, motivated pre-college student on the path to success. Tufts Summer Study is a selective program that offers high achievers like you the chance to take college level courses, specialized programs, and prep classes that get you ready for the college application process. You'll work closely with seasoned professors, immersed in a community built around academic excellence.
- [Vanderbilt University](#)
 - Grades 10,11 Session III only
 - This residential academic experience provides qualifying students with a taste of college life. As a VSA student, you will live on campus and take accelerated courses with Vanderbilt professors, lecturers, and graduate students. Outside the classroom, our carefully selected residential staff members supervise the dining and residence halls, plan fun and engaging recreational activities, and help ensure that every VSA student has a fulfilling experience.
- [Wake Forest University](#)
 - The Wake Forest University Summer Immersion Program offers 9th – 12th grade students the chance to dive deep and explore a particular field of study. Those selected for the program will enjoy access to world-class faculty, resources, industry professionals and a one-of-a-kind view from inside a career field. The Wake Forest Summer Immersion Program illuminates Wake Forest's value and visibility and shows high school students the impact a single week can make on their lives.
- [Washington University in St. Louis](#)
 - Grades 9,10,11
 - Whether students choose to attend a for credit or noncredit Summer Experience the benefits are the same. Students gain invaluable experience managing time, studying for exams, writing papers, and collaborating with peers. Our dedicated staff is available 24/7 to provide academic and emotional support to enable student academic success. We have many resources in place to assist our students in their studies.
- [Wentworth Institute of Technology](#)
 - Grades 10,11
 - At Wentworth Institute of Technology, we have developed a pre-college experience called ImpactLab. It's a two-week residential summer experience for rising juniors and seniors in high school, that lets you try college on for size. But not just college. At ImpactLab, you can try a profession on for size. Do you want to help the world with engineering solutions? Design solutions? Scientific solutions? ImpactLab is a head start on figuring out what you want to do with your life. AND, best of all, it's two weeks living and collaborating with new friends who share your concerns—and your fascinations. Problem solvers like you.

- [College of William and Mary](#)
 - Grades 10,11,12
 - Our faculty and facilities are a rich educational resource for the entire community. We invite pre-college students from all backgrounds to discover the excitement of college-level academics through a wide variety of pre-college programs.
- [University of Wisconsin](#)
 - Grades 10, 11
 - Students take courses with experienced college students and establish an official UW–Madison transcript. Summer Term courses are taught at an accelerated pace, so students should be ready to take responsibility for their academic plans and performance.
- [Worcester Polytechnic Institute](#)
 - Grades 9,10,11,12
 - In the Launch program for rising 9th, 10th, and 11th grade students will leverage research and technology to find solutions to current problems in a variety of scientific fields alongside WPI’s renowned faculty. Launch is offered as a commuter program where students will be able to step into the shoes of a video game designer, computer programmer, crime scene investigator, robotics engineer, and more! Please see the program details for more information regarding format.
 - The Frontiers program, running for over 40 years, is a residential, overnight program for rising 10th, 11th and 12th grade students who want to explore STEM through a collegiate lens, and prepare for their own collegiate journey. Students will be challenged to explore the outer limits of their knowledge in STEM and explore unsolved global issues, along with a touch of humanities through another aspect such business entrepreneurship, digital painting, psychology, and more.

Visual & Performing Arts

- [Academy of Art University](#)
 - A six-week intensive program offering up to four classes either online or in San Francisco
 - Get a glimpse into college life, meet other young artists and explore a variety of art & design fields
 - Students must be entering high school as a sophomore, junior or senior year in the fall
- [AMDA High School Conservatory](#)
 - We are currently entering our 9th year for our On-Campus programs and our 3rd year for our online programs, with new additions to each division! The AMDA High School Conservatory is an immersive program that provides extraordinary performing arts training for passionate artists. This program offers cutting-edge learning opportunities that are uniquely personal and specifically designed for

today's emerging performing artists. The High School now offers 3 different programs that all offer pre-college training from our world-class faculty, performing arts centered cultural activities, an opportunity to audition for the college and alternative High School Conservatory programs & culminates in an original final presentation to share with your family and friends. [Berklee College of Music](#)

- Ages 15+
- Join us and musicians from more than 70 countries for the summer of a lifetime. The focus is on you and what you want to say with your music in an environment that is pure performance. Come immerse yourself in your chosen style and study with world-class faculty and visiting artists in state-of-the-art facilities. You'll play in ensembles, develop improvisational and reading skills, and improve your technique in weekly private lessons.
- [Christie's Art Now](#)
 - Art Now offers an exciting insider's look at the fast-paced contemporary art world of today. Students go behind the scenes at one of the world's preeminent auction houses and enjoy lecture and expert guided visits to galleries, private collections and world-class museums.
- [California College of the Arts](#)
 - Grades 10,11,12
 - CCA's Pre-College Program is an exciting opportunity for high school students to study art, architecture, design, or creative writing in an art-school setting. Our program provides a perfect platform to expand your knowledge, grow as an individual, develop strong portfolio pieces, and get a taste of college life.
- [UCLA](#)
 - At the Film and Television Summer Institute, students experience hands-on learning, whether they are working with state-of-the-art equipment, seeing their writing performed by professional actors, or getting a behind-the-scenes look at a theme park attraction. All courses are taught by UCLA Film and Television faculty who are active and accomplished in their field. We offer both on-campus and online programs. All courses earn UC college credit and they may be transferable to another institution.
- [Columbus College of Art and Design](#)
 - Grades 10,11,12
 - You'll be able to experience any of our majors as you participate in classes, workshops and activities all taught by our talented faculty and staff. In and out of the classroom, you'll have opportunities to meet and collaborate with other emerging artists and designers from all across the country. You'll live in one of our residence halls, experience campus and the Columbus community — just like a full-time student.
- [Cow House Studios, Ireland](#)
 - Ages 15-18
 - Art on the Farm presents a unique opportunity to study drawing, painting, photography and new media alongside practicing visual artists in a focused and intimate studio environment.

- [Denison Summer TUTTI](#)
 - Ages 15-18
 - Summer TUTTI Performing Arts Camp at Denison University offers talented high school dancers, musicians, and theatre-makers a chance to deepen their skills while collaborating with professional artists and ensembles and peers from across the country.
- [Fashion Institute of Technology](#)
 - Grades 9-12
 - The Fashion Institute of Technology's Precollege Programs provide middle and high school students with experiential learning opportunities, and offers parents, K-12 educators and youth organizations an insightful lens into FIT's majors and the wide-ranging industries FIT serves. Precollege Programs prepares students for the FIT admissions process, including creative arts portfolio development, and features the unique experience of being part of FIT's dynamic and diverse college campus and the cultural vibrancy of New York City that informs and enriches the college, its history and its campus community.
- [GRAMMY Camp](#)
 - GRAMMY Camp is an intensive interactive summer music industry camp for students currently enrolled in high school. The program focuses on performance, technical skills, the business of music and the many aspects of commercial music production.
- [University of Michigan; School of Art and Design \(STAMPS\)](#)
 - Grades 9-11
 - Stamps Pre-College Programs include non-residential, afternoon Spring Studios and two and three-week Summer Residential Studios. Our programs offer portfolio-building courses in art and design, training from Stamps faculty, and an up-close look at life on the campus of the University of Michigan.
- [Parsons Paris](#)
 - Grades 9-12
 - Want to delve into the world of fashion before you decide what you'll study in college? Parsons Paris has created online courses for students 13 and up to introduce you to this vibrant field. Taught by experts in Paris fashion through video lectures, courses cover everything from business, history, and trends to actual design methods and potential careers. Multi-length courses are available year-round. The asynchronous, online format allows you to study anywhere, anytime, at your own pace. You will also receive valuable guidance from Parsons' mentors.
- [Pratt Institute](#)
 - Grades 10,11,12
 - Students choose a major focus modeled after Pratt's undergraduate offerings. To complement this chosen major, students are automatically enrolled in foundation, art history, and portfolio development classes. Upon completion of the program, students earn four elective college credits.
- [Purchase College](#)
 - 9-12

- The precollege programs in the arts at Purchase College are for high school students who are passionate artists and/or have an interest in pursuing the arts on a college level. These programs provide portfolio building and audition training technique opportunities. Students may earn certificates based on participation and attendance.
- [Rhode Island School of Design](#)
 - Grades 10,11
 - Master a range of tools, materials and techniques. Study with award-winning faculty in our art studios. Create supplementary pieces for your college admission portfolio. Forge the kind of friendships that last a lifetime.
- [SCAD](#)
 - Grades 9-12
 - This summer, explore new avenues of artistic development and spark your imagination at The University for Creative Careers. SCAD offers summer programs for high school students of all ages to pursue art and design disciplines while working alongside peers from all over the world. With exceptional buildings, extensive equipment and inspirational settings, SCAD summer programs offer ideal opportunities for artists at all levels to create, learn and grow.
- [School of Visual Arts](#)
 - Grades 9-12
 - Summer Pre-College is an intensive three-week program that provides the experience of attending art school in the heart of New York City. Students are immersed in their chosen field of study through unique studio projects and instruction from SVA's award-winning faculty. Classes are taught Monday through Friday from 9am - 4pm and take place in SVA facilities. The program is further enhanced by a robust offering of evening and weekend chaperoned activities and events that take full advantage of the social and cultural life of New York City.

Language

- [Middlebury](#)
 - Grades 9-12
 - The Academy is an enriching program for motivated middle school and high school students who want to accelerate their language skills, while enjoying a pre-college summer camp experience with other like-minded teens. Language immersion can be challenging, but choosing to spend a summer learning a language at the Academy offers a number of tangible benefits

Writing/Journalism

- [Bard College](#)
 - Grades 9-11

- Unlike conventional workshops in expository and creative writing, Simon’s Rock’s focuses on using informal, playful, expressive writing as a way to strengthen skills of language and thinking. Out of these informal writing activities, using techniques of peer response, students develop more polished pieces, ranging from personal narratives to stories, poems, and exploratory essays.
- [Boston University Summer Journalism Academy](#)
 - The Summer Journalism Academy at Boston University gives students ages 14 to 18 the opportunity to expand their skills and prepare for college, either through a residential experience on campus or through remote instruction from home. Each academy instructor is also a working journalist, so what’s taught is grounded in real-life experience. Each lesson is tied to its practical application, by giving students actual reporting assignments. Each day is a sample of life as a news reporter.
- [CSPA High School Journalism Workshop](#)
 - The CSPA Workshop is the longest-running and most successful high school journalism workshop in the country. Our graduates have gone on to work for the Los Angeles Times, the Orange County Register, Forbes, The Associated Press, ESPN, CBS, Fox and other nationally recognized media outlets. Each summer, 25 students are selected to receive hands-on instruction in the areas of print, broadcast, online and photo journalism, plus classes in ethics, public records and more. They will tour the local newspaper office and television station and enjoy an afternoon at the beach.
- [Sarah Lawrence](#)
 - Grades 9-12
 - Pre-College programs at Sarah Lawrence College provide creative and academic immersion into subject areas that represent the strengths and talents of our faculty and undergraduate offerings, making the experience of study and creation at Sarah Lawrence accessible to pre-college students. Each program is designed to meet students at their current talent and skill level, and to help them develop and grow through individualized attention and the creation of original work. Residential options give pre-college students a taste of living on a college campus, while non-residential options offer scheduling flexibility.
- [The School of The New York Times](#)
 - Grades 9-12
 - Structured around two-week courses that draw on the expertise and unrivaled access of The New York Times, this unique summer program encourages students to take their learning beyond the classroom and into the world. Working with award-winning journalists from The Times and expert practitioners from across the city, students will explore their passions and learn firsthand how ideas take shape, forming the industries of today and the creative enterprises of tomorrow.
- [Princeton University](#)
 - Grade 11
 - We welcome 35-40 high school students from low-income backgrounds every summer to Princeton's campus for an intensive, 10-day seminar on journalism. The program's goal is to diversify college and professional newsrooms by

encouraging outstanding students from low-income backgrounds to pursue careers in journalism. All expenses, including students' travel costs to and from Princeton, are paid for by the program. Students who attend the program come from across the country. The program will enter its seventeenth summer in 2018. It will take place from August 3 to August 13

- [Writopia Lab](#)
 - Grades 9-12
 - Writopia Lab fosters joy, literacy, and critical thinking in children and teens from all backgrounds through creative writing.
- [Reynolds Young Writers Workshop at Denison](#)
 - Grades 10, 11
 - The Reynolds Young Writers Workshop at Denison is an energizing 8-day program for motivated high school students (rising juniors and seniors) who love to write. For nearly 30 years, the Reynolds Workshop has brought together young writers who are passionate about writing and eager to connect to a close-knit community of writing friends. The workshop is held each June on the beautiful campus of Denison University, a leading liberal arts college, in the village of Granville, Ohio.

STEM/Medicine

- [2Sigma School](#)
 - Study a Full Year of Computer Science with Summer of Code. This summer, do something that can change your life! Computer science can give an upwards inflection to your life and career, even if you don't want to become a computer scientist! Take an accredited, project-based course with a live teacher.
- [AI Camp](#)
 - Learn AI in small classes online with our instructors. 6 students max per instructor. Build an impressive AI product for your college admission portfolio in the summer. Speak with at least 3 guest speakers who are professional AI practitioners. Experience various tech roles and learn how to make informed career decisions. Gain access to our learning center with all AI learning materials. No coding experience necessary to begin.
- [AwesomeMath](#)
 - It is an intensive summer camp for mathematically gifted students from around the globe. It is designed for bright middle and high school students who wish to hone their problem solving skills in particular and further their mathematics education in general. Many of our participants seek to improve their performance on contests such as AMC10/12, AIME, or USAMO.
- [Bold Summers in partnership with University of Pennsylvania's Perelman School of Medicine](#)
 - Ages 16-18

- Spend four weeks experiencing the University of Pennsylvania’s Perelman School of Medicine intensive summer program designed for high school juniors and seniors interested in medical careers. Modeled after actual first year Penn Med classes, you’ll gain exposure to the basics of medical training including practical experiences, simulations and live demonstrations. Plus, you’ll live the life of a college student on Penn’s campus, located in University City in Philadelphia, PA. Experience dorm life, campus living, attend classes, and make life-long friends!
- [Burke Neurological Institute Neuroacademy](#)
 - This hands-on training course will introduce students to fundamental biological based neuroscience at the molecular and cellular levels. Modern laboratory techniques will be explored while critical thinking is applied to the scientific process and bioinformatics. For 5-weeks in the summer, this program will provide students with the opportunity to learn and apply fundamental biological information and approaches across three modules. We believe that this enrichment program offers a unique gateway into potential research opportunities both at the Burke Neurological Institute and other institutions and has the potential to improve a student’s preparation for college-level science curriculum.
- [Einstein-Montefiore High School Summer Research Program](#)
 - The Einstein-Montefiore Summer High School Research Program introduces high school students age 16 and older to the excitement of leading-edge scientific research. It is our hope that because of this experience, students will begin to think about a career in science while still in high school. Students are selected from a pool of applicants for a five-week full-time summer research experience. Applicants must demonstrate academic excellence and be recommended by their high school science teacher and/or science chair.
- [Health Careers Institute at Dartmouth](#)
 - The Health Careers Institute provides opportunities for high school students from New Hampshire and beyond to explore different areas of health care as a discipline. We do this through experiential and academic endeavors. These experiences include visiting clinical settings such as Dartmouth-Hitchcock Medical Center (DHMC). Additionally, participants have many opportunities to converse with health care professionals including physicians, nurses, health care administrators, and research scientists.
- [Inspirit AI](#)
 - Artificial intelligence is revolutionizing every discipline and career, our program focused on the application and ethics of AI across domains such as music, ecology, medicine, robotics, and more. Our team of AI mentors guide students through projects in small groups of 5:1– with no prior CS experience required. We have had the opportunity to work with 7000+ students from 65+ countries, and would be thrilled to work with your bright students.
- [InvestiN](#)
 - We are offering students aged 12-18 exclusive medical experience this summer in world-class hospitals and clinics across London: highly-immersive activities supervised by experienced doctors, dentists, vets, psychologists and more.

- [Learn with Leaders](#)
 - [Future Doctors Program](#)
 - A Harvard Student Agencies, 2-weekend program conducted over 9 days, that provides high school students (Grades 8–12) with the unique opportunity to delve into the pre-medical field. The program seeks to provide a one-of-a-kind experience for students to be confident and knowledgeable about the path to medical school. No prior experience is required in order to participate in this program.
 - [Young Tech Leaders](#)
 - A 2-weekend program conducted over 10 days that will inspire you to become a life-long student of computer science. In addition to the overarching themes of abstraction and algorithmic thinking, will learn the fundamental building blocks of procedural programming including variables, conditions, loops, functions, and file input/output. By the end of this course, you will be able to further study all that can be accomplished with Python, or bootstrap yourself into learning another language.
- [Math Camp](#)
 - Canada/USA Mathcamp is an intensive 5-week-long summer program for mathematically talented high school students, designed to expose these students to the beauty of advanced mathematical ideas and to new ways of thinking. More than just a summer camp, Mathcamp is a vibrant community, made up of a wide variety of people who share a common love of learning and passion for mathematics. At Mathcamp, students can explore undergraduate and even graduate-level topics while building problem-solving skills that will help them in any field they choose to study.
- [NASA Internships & Fellowships](#)
 - NASA Internships are educational hands-on opportunities that provide unique NASA-related research and operational experiences for high school, undergraduate, and graduate students as well as educators. These internships integrate participants with career professionals emphasizing mentor-directed, degree-related, real-time world task completion. During the internship participants engage in scientific or engineering research, development, and operations activities. In addition, there are non-technical internship opportunities to engage in professional activities which support NASA business and administrative processes. Through these internships, participants leverage NASA's unique mission activities and mentorship to enhance and increase their professional capabilities and clarify their long-term career goals.
- [National Security Agency STEM Program](#)
 - The National Security Agency's (NSA) Gifted and Talented Program is open only to high school seniors. The program is designed for students who have demonstrated an aptitude for engineering, math and science.
- [New York Math Circle](#)
 - The Summer High School Math Circle is an academically intensive weekday program for students entering grades 9–12 in the fall that runs for three weeks,

five hours a day. A typical day consists of a class in the morning, followed by lunch, and a problem solving session in the afternoon. Instructors and teaching assistants are very friendly and helpful, and the atmosphere is open and collaborative.

- [Rochester +Live](#)
 - Three of the most popular courses from the University of Rochester's Pre-College Online Program now include a new option this summer: +Live sessions. In these online, engaging events students will hear from experts in each course's subject area, collaborate with mentors, and participate in interactive events with global classmates. +Live options and available schedules this summer:
 - Biomedical Engineering +Live
 - Personalized Medicine +Live
 - Video Game Design +Live
- [Women In Engineering GAMES Camp](#)
 - Girls' Adventures in Mathematics, Engineering, and Science (GAMES) is an annual week long camp, designed to give academically talented high school girls (rising 9th-12th graders) an opportunity to explore exciting engineering and scientific fields through demonstrations, classroom presentations, hands-on activities, and contacts with women in these technical fields. We present an advanced curriculum, use world-class instructional facilities, and provide an "away from home" experience at one of the best engineering schools in the world. Enrollment in the program is limited to ensure the quality of the academic experience. GAMES has a selective admissions process based on academic performance, a written essay and a teacher recommendation.

Leadership

- [ACLU](#)
 - From free speech to privacy and from mass incarceration to voting rights, students will become experts on the issues currently being confronted in the United States' courts and political arena.
 - Through an intensive 8-day program (July 18-25, 2018) in Washington D.C., students will learn directly from lawyers, lobbyists, community activists, and other experts working to defend the civil rights and liberties critical to a free and open society.
- [Bank of America Student Leaders](#)
 - Every year, through our Student Leaders program we help connect 225 community-minded high school juniors and seniors to employment, skills development and service. They're awarded paid summer internships with local nonprofits such as Habitat for Humanity and Boys and Girls Clubs of America and participate in a national leadership summit in Washington, D.C. Student Leaders is part of our ongoing commitment to preparing young people for a brighter future. The 2019 Student Leaders application period will open in Fall 2018. Check back for dates.

- [The Bronfman Youth Fellowship](#)
 - Every year, twenty-six outstanding North American teenagers are selected as Bronfman Fellows. The highlight of the Fellowship is a five week, all expense-paid Summer Fellowship in Israel. Fellows engage in thought provoking study and conversation and make lifelong friends. Our high-caliber educators focus on teaching a broad range of traditional and contemporary Jewish texts at a university level. Fellows encounter the land and people of Israel, study major issues in contemporary Jewish life, meet with some of today's most influential figures, and learn about themselves and each other. The Fellowship year continues with seminars in December and March in New York. Fellows continue their association with the Fellowship through our extraordinarily active, 1000+ alumni community.
- [Envision: National Youth Leadership Forums](#)
 - Our career, technology, and leadership programs are developed by educators and subject-matter professionals. Using innovative tools and techniques, our activities mirror real-world challenges and facilitate critical thinking and communication among the groups. Our Advisors are highly trained teachers and subject-matter experts who love making a real impact—so much so that they come back year after year.
- [Junior State of America](#)
 - As a student attending JSA Summer School you develop unique skills and know-how that prepare you for success in college and beyond. Unlike other pre-college programs, JSA Summer School programs integrate college-level academics with a mix of engaging enrichment activities designed to build your success skills – emphasizing leadership, confidence and preparedness to take on challenges no matter what college, career or life path you choose.
- [LEAD Program](#)
 - The LEADing for Life Global Summer Learning Institute (GSLI) is a residential program that will focus on developing a Pipeline of high-achieving, diverse students (current high school juniors) by providing an immersive learning opportunity that includes both industry and college experience.
- [Learn with Leaders Young Leaders in Innovation & Entrepreneurship Program](#)
 - A 2-weekend program that teaches students how to pitch their business ideas, perform market research, and generate investment. The program acts as an excellent preparation mechanism for launching an idea to execution.
- [Lehigh University Iacocca Global Entrepreneurship Intensive](#)
 - IGEI 2022 is a highly interactive program that combines real-world learning opportunities and intercultural experiences. Work on a group project solving a real problem for a U.S. or international client company. Learn about entrepreneurship, design thinking, global leadership and working within a culturally diverse group. Meet other bright high school students (ages 15-17) from around the world and form friendships that will last a lifetime. Students will select from focus areas like Sustainability, Technology, Population Health, or Marketing and Branding, with the unique opportunity to pursue a “deep dive” within the entrepreneurship intensive. The curriculum includes faculty from

across the university and throughout the worldwide Iacocca Institute network, as well as collaboration with Lehigh's Baker Institute for Entrepreneurship, Creativity and Innovation; Lehigh@NasdaqCenter; and the Mountaintop Initiative.

- [Mercy College Summer Leadership Academy](#)
 - Grade 11
 - Rising high school seniors experience college first-hand during this week-long, action-packed summer program. They learn about leadership and business careers from Executive Faculty who have worked at top global companies.
- [West Point Summer Leaders Experience](#)
 - This is a week-long immersion in academic, military and social life for those considering the United States Military Academy. You will explore the United States Military Academy from all angles, including some intense military training and athletic activities. An action packed week, it's the best way for you to gauge the challenges you would encounter and overcome as a United States Military Academy cadet.

Research

- [Hofstra University's Summer Science Research Program](#)
 - Hofstra University's Summer Science Research Program offers high school students opportunities in science research under the guidance of professionals in science and mathematics. For more than ten years, HUSSRP has provided selected research-oriented high school students the opportunity to work with our science faculty during the summer in an on campus research program. The program runs from early July through mid August culminating in a science "poster session" in early Fall where students display the work they performed during the summer. The poster session is open to all students in the program and their teachers. Students will be selected for this program on the basis of their high school science experience, a personal interview and, above all, the high school teacher's recommendation.
- [Memorial Sloan Kettering Summer Student Program](#)
 - This eight-week program gives motivated and self-directed students a chance to conduct their own research in a state-of-the-art lab under the guidance of a post-doc, and then publicly present their results. A stipend is awarded upon completion of the program.
- [Project True](#)
 - Project TRUE interns work at either the Bronx, Central Park or Prospect Park Zoo while spearheading their own research project to encompass experimental design, research methods and data analysis, with the help of Fordham University graduate students and Wildlife Conservation Society educators. Some weekend workdays are required, and unexcused absences will result in dismissal. (Teens can also pay to participate as part of a different Teen Intern program, or volunteer as a Discovery Guide.) A \$599 stipend and MetroCard are provided.

- [Simons Summer Research Program](#)
 - The Simons Summer Research Program gives academically talented, motivated high school students who are between their junior & senior years the opportunity to engage in hands-on research in science, math or engineering at Stony Brook University. Simons Fellows work with distinguished faculty mentors, learn laboratory techniques and tools, become part of active research teams, and experience life at a research university

Internships

- [Go Getter Internship](#)
 - The GO Project summer internship is an opportunity for high school students to learn and develop leadership skills while working with GO Project students in academic and/or enrichment classes. During the 5-week GO Summer program, interns will be working as teaching assistants in one of our K-5th grade classrooms under the guidance of a Head Teacher or Enrichment Teacher. Interns will work in small groups or one-to-one within the classroom to help students complete projects, remain focused, and build confidence as learners. Interns will also be participating in rigorous daily professional development sessions where the Echoing Green book, Work on Purpose, will be used to help them discover and enhance their passions and talents to become change-making leaders in their community.
- [Greenwich Audubon Center](#)
 - Grades 10, 11
 - The 2022 Eco-Leadership Corps is an intern program for high school students to spend eight weeks working at our center in conservation leadership development while exploring and enhancing the 285-acre Greenwich Audubon Main Sanctuary, as well as several offsite locations of conservation interest. Interns will begin working on June 29th, Monday-Friday from 9 am to 3 pm, until August 19th. This intern program has three core components: Corps interns will study New England ecology with Audubon naturalists, improve bird habitat through hands-on learning of land stewardship practices, and develop educational programs for use in Audubon conservation programs throughout the region.
- [The Metropolitan Museum of Art](#)
 - The Metropolitan Museum of Art offers an internship program that allows high school seniors with an interest and/or background in art and art history to participate in projects and programs designed to broaden an understanding of the Museum and deepen knowledge of art, meet members of the Museum staff, and work behind the scenes. Interns meet for six weeks, Monday through Friday, during the months of July and August. An application process is required. Interns participating in this program will receive a stipend.
- [Museum of Arts and Design](#)
 - Artslife is a paid summer internship program for rising sophomores and juniors in high school that combines art and design with leadership training, museum

studies, and community engagement. Participants are introduced to museum careers such as Curatorial, Education, Development, Public Relations and Marketing, Visitor Services, Security, and Registrar. During the initial week, participants get to know one another and meet museum staff. During the remaining six weeks, participants work on collaborative projects, with Museum staff, local designers, arts professionals who act as mentors. Students enjoy first-hand experience and the broadest possible exposure to ongoing museum activities, both public facing and behind-the-scenes.

- [New York County District Attorney's Summer Internship Program](#)
 - The New York County District Attorney's High School Internship Program is a rigorous internship that provides students with an insider's view of the criminal justice system. Each intern is assigned to a unit within the Office and helps Assistant District Attorneys and other staff members with their work. Interns also attend presentations and trips and participate in a mock trial competition.
- [New York Historical Society](#)
 - Student Historian interns are high school-aged students who use the resources of New-York Historical to conduct exciting research and share their scholarship through creative projects. Interns meet with professional staff to learn about careers in the museum, library, and history fields; work collaboratively with fellow students to develop their public speaking and leadership skills; and engage in hands-on work to deepen their understanding of American history and art.
- [PENCIL Internship Program](#)
 - The PENCIL Internship Program is a competitive summer internship program for eligible New York City high school and college students. Student complete over 20 hours of career readiness training focused on essential skills like time management, resume-writing and interviewing; before being matched to a paid six week summer internship at a company, non-profit organization or government agency in New York City.
- [Smithsonian Internships](#)
 - Advance your education and career through the myriad of opportunities offered at the world's preeminent museum system.
- [Wave Hill Forest Project](#)
 - Wave Hill and Lehman College collaborate to provide a summer job opportunity combined with academic studies in Basic Mapping Science, including Geographic Information Systems (GIS). Wave Hill's Forest Project offers site visits to environmentally significant locations and oversees small work crews to prune or clear excess vegetation, plant native species, fortify hillsides, and repair woodland trails to prevent erosion along the Hudson River. Lehman College's Department of Environmental, Geographic and Geological Sciences offers laboratory sessions and lectures by graduate students for three college credits, tuition-free.

Community Service

- [Boys & Girls Club](#)
 - The Boys & Girls Club of Northern Westchester, established in 1939, is a non-profit organization dedicated to serving youth, ages 6 months to 18 years, from more than 60 Northern Westchester communities.
- [Caramoor](#)
 - Caramoor Center for Music and the Arts is a destination for exceptional music, captivating programs, spectacular gardens and grounds, and wonderful moments with friends and family. It enriches the lives of its audiences through innovative and diverse musical performances of the highest quality. Its mission also includes mentoring young professional musicians and providing educational programs for young children centered around music.
- [Habitat for Humanity](#)
 - Habitat for Humanity of Westchester is successful because of the many volunteers who selflessly donate their time and talents. There is more involved than just construction, and there are many ways in which your skills can help Habitat for Humanity of Westchester. If you would like to get information on the specific committees involved in the decision making for HFH of Westchester, come to Volunteer Orientation, every Monday night at 6pm at our New Rochelle headquarters. No experience is necessary!
- [Humane Society of Westchester](#)
 - The Humane Society of Westchester, founded in 1911 as the New Rochelle Humane Society, is a non-profit 501(c)(3) organization dedicated to promoting the human/animal bond through the compassionate care and treatment of animals throughout the communities we serve in Westchester County and beyond. To that end, our goal is to create a living environment that is not just a shelter, but a transitional home for stray, lost, abandoned, injured, and abused animals, until they can ultimately be placed in loving permanent homes. Through promotion of successful pet adoption, animal population control, and public education of animal welfare issues, we advance our belief that pet ownership is a lifetime commitment
- [JCY Summer Reading Buddy](#)
 - Summer Reading Buddies meets twice a week for six weeks in the Yonkers Riverfront Library and once a week at the Mount Vernon Public Library. Children work with our volunteers on their assigned summer reading projects while their parents attend workshops on life skills offered through partner organizations.
- [New York Botanical Gardens](#)
 - No matter what your interests, skills, or schedule, you can help the Garden in its valuable work. Volunteering at the Garden is a great way to expand your knowledge of plants, give back to your community, meet new people, and share your love of the Garden with others.

- [Society of St. Vincent de Paul](#)
 - The Society of St. Vincent de Paul welcomes those who wish to serve their neighbor. If you are interested in volunteering, please contact the nearest SVdP location. The Society of St. Vincent de Paul is present in 4,400 communities across the U.S.
- [SPCA](#)
 - If you have a love for animals, we have a volunteer opportunity for you! Whether you are interested in dog walking, cat care, grooming, greeting shelter visitors, event planning, taking part on our Golden Outreach Pet Therapy Program, shelter beautification, administrative work or opening your home to a foster animal, we can always use your help. If you have a special talent such as photography, carpentry or art, we can work together to find creative ways to use your skills.
- [Westchester Medical Center](#)
 - Whether you're a retiree wanting to give back to the community, a student exploring what it may be like working in a hospital setting or you just have a desire to help others, there are many opportunities at Westchester Medical Center and Maria Fareri Children's Hospital at Westchester Medical Center.

Education, Special Interests & Adventure

- [Abbey Road](#)
 - Our mission is to provide quality academic summer programs that facilitate cross-cultural understanding, personal growth and academic enrichment. Abbey Road was created through a collaboration of the best young professionals and educators from top schools and esteemed institutions. Our curriculum developers and staff come from places such as Harvard, Yale, Stanford, Duke, Cambridge, La Sorbonne, the United Nations, the World Bank, the European Parliament and the State Department just to name a few.
- [Adventures Cross Country](#)
 - ARCC offers 18 different summer program options on six continents. ARCC Summer programs take place between June and August and last from two to five weeks. We work diligently to ensure the sense of discovery and adventure is genuine on all our programs as our groups often travel to remote locations rarely visited by outsiders. Our student population is widely distributed from throughout the United States and we have a number of international participants as well. All of our summer programs combine a series of service projects with adventure and cultural activities.
- [Broadreach](#)
 - Over the past 24 years, Broadreach has expanded the horizons of over 16,000 middle school, high school and college students. On 70+ summer adventures in 40+ countries, our students have pursued their interests, unlocking the world, understanding its people and finding themselves along the way. They've earned 9000+ college credits in subjects ranging from marine biology and medicine to

Spanish and photography, and more than 31,000+ certifications through hands-on education. They've logged over 124,000 community service hours while making the world a better place, and traveled countless miles across oceans, off beaten paths and into ancient cultures. They came alone, but left with 10-12 incredible friends and the knowledge that life's possibilities are limitless.

- [Bruce Beck & Ian Eagle Sports Broadcasting Camp](#)
 - Bruce and Ian will be at camp each day to provide insight into the skills that will help them in their high school and college years as they pursue a career in sports broadcasting. With a focus on fun and engaging activities, campers learn essential skills, including: Interviewing Skills, Sports Show Hosting, Women in Sports Broadcasting, Sports Anchoring, Preparing for the Game, Radio and TV Play-by-Play, Sports Talk Radio Hosting and Producing, Working the Locker Room, Play-by-play of a Professional Baseball Game
- [CIEE](#)
 - Up for an adventure like no other? Our Global Navigator summer abroad programs take you way outside your comfort zone, far away from home. Explore a different culture in more than 25 amazing destinations across the world. Come home with new skills, newfound passion, a broader perspective – and maybe even college credits!
 - Language & Culture, Service & Leadership, Global Discovery
- [EXPLO](#)
 - The curriculum at EXPLO is unusual: It allows students to investigate subjects they're not likely to encounter during the school year. Our courses aren't for credit and are ungraded. They encourage students to step away from focusing on performance and evaluation, and instead follow their passions and interests. An EXPLO classroom is lively and active. Students are moving, designing projects, and challenging one another. Here, learning is captivating, challenging, and fun.
- [Global Leadership Adventures](#)
 - GLA's goal is to provide life-changing experiences that will cultivate a global perspective and open-mindedness in students that will ultimately inspire them to become great leaders and global thinkers and seek positive change in their own communities. Programs are offered in Africa, Asia, Europe and Latin America.
- [GoBeyond](#)
 - If you're searching for something more than just a typical summer trip; if you want to travel with real purpose, then GoBeyond. We go beyond ordinary high school travel programs and build cross-cultural service adventures perfectly geared to your interests and curiosities. Whether you're looking to contribute to authentic service projects, experience exhilarating adventure, or develop your language skills, GoBeyond will immerse you in a new culture where you can make a meaningful difference while on the journey of a lifetime.
- [Jacob Burns Film Center](#)
 - The Jacob Burns Film Center offers innovative programs in new media, documentary and fiction film production, screenwriting, animation, and so much more for students from Pre-K through adulthood.

- Lab Camp
- Summer Co-op
- [Learn with Leaders](#)
 - [Future Lawyers Program](#)
 - The Future Lawyers Program aims to orient students to the field of law. The program covers due process of law, the many careers in the world of law, the difficult-to-navigate requirements of the application to law school, and much more.
 - [Policy Making & International Relations Program](#)
 - The Policy Making and International Relations Program is an intensive 2 week online program for high school students interested in politics. The core of the Program is around its lessons: You will be taught by Harvard students on the topics of political theory, international relations, campaign management and hot topics in the US government. Throughout this program, students will also have the opportunity to form groups and tackle a policy problem that they are personally passionate about.
- [National Geographic Student Expeditions](#)
 - National Geographic offers student travel programs around the world each summer that aim to inspire and educate middle school and high school students ages 13 and older. Get into the field on an Expedition, Community Service trip, Photography Workshop, or University Workshop, in a destination that captures your imagination.
- [NOLS](#)
 - NOLS is a nonprofit school that seeks to help you step forward boldly as a leader. We believe that anyone can be a leader; it's our role to provide the environment and training to help you discover your full potential. We do that in classrooms close to home and in remote wilderness areas around the world. We're an organization with heart, expertise, and wildness, and these qualities help us support powerful, authentic experiences.
- [Overland](#)
 - Far more than simply a summer experience, Overland is a life experience with value and resonance that extends beyond the boundaries of a single summer. In everything we do, we seek to inspire our students to see how beautiful and exciting, how full of promise the world is.
- [Oxbridge Academic Programs](#)
 - For over 30 years Oxbridge has organized summer study programs for students aged between 13 and 18 (grades 8 to 12) who would like to enrich themselves intellectually while immersing themselves in new cultures. Our programs are held in some of the world's greatest academic and cultural centers, including Oxford, Cambridge, St Andrews, Paris, Montpellier, Barcelona, Salamanca, New York, Boston and Los Angeles, and offer a wide variety of courses, ranging from History, Medicine, Law, and Business to Art, Fashion, Photography, Psychology, and French and Spanish immersion, among many others. These courses are taught in small groups by leading university academics and creative professionals.

- [People to People](#)
 - Our mission is to enhance international understanding and friendship through educational, cultural, and humanitarian activities involving the exchange of ideas and experiences directly among peoples of different countries and diverse cultures.
- [Putney](#)
 - Our programs are special. They emphasize doing — having fun, getting off the beaten track, creating lasting friendships, and having meaningful interactions with people we meet. The maturity, self confidence, global perspective, and sensitivity towards others that our students develop derive from the close friendships, personal discovery, and the tremendous satisfaction of conquering new challenges.
- [Rustic Pathways](#)
 - Not only is Rustic Pathways a pioneer in providing quality travel and service programs for students and educators, but we're also redefining how to integrate education, travel, and philanthropy in a world where all people are connected by a shared humanity. At Rustic, our mission, vision, and values drive the way we run our programs, partner with local communities, and live our lives.
- [SAI](#)
 - SAI offers programs for high school and gap students to complete college-level coursework. High school programs are available in the summer, and provide a fully supervised unforgettable experience. Gap programs are available in the semester and academic year, and provide a gentle introduction to college-level life and courses. High school and gap programs provide strong on-site services to ensure that the proper support is in place for students to thrive.
- [SEA Semester](#)
 - This three-week summer program at SEA offers motivated high school students the opportunity to study the marine environment from a variety of perspectives – scientific, historical, literary, and nautical. Participants live and study at our campus in Woods Hole, Massachusetts. Academic programming is scheduled throughout each day, including on most weekend days. Coursework includes lectures, discussions, laboratory activities, and field trips; all introducing students to the study of oceanography, the history of humanity's relationship with the oceans, and modern maritime issues. Teamwork, leadership, and sense of community are the underlying values of SEA's academic curriculum. Participants not only grow as students, but as global citizens and individuals.
- [Summer Discovery](#)
 - Our unique summer programs combine academics with travel, recreation, activities, and sports. Courses are taught by university instructors and students experience college life while gaining independence and building better social skills. Our safety and supervision standards are unmatched and we're proud to boast on average a 10:1 student to counselor ratio. For 55 years, we've helped more than 100,000 students from all over the world learn and grow while having the summer of a lifetime.

- [Villanova NROTC Summer Seminar](#)
 - Villanova University will be hosting a unique opportunity this summer for rising high school seniors to get a close up look at their well-regarded Naval Reserve Officer Training Corps (NROTC) program. This NROTC Summer Seminar will be a 4-night/4-day on campus experience to provide young men and women a better understanding of the balance between college life and the NROTC scholarship commitment. Topics and activities will include general military training, exposure to college classes and facilities, physical fitness, a trip to a historic landmark near Philadelphia, and workshops on best practices for both college and NROTC applications
- [Wilderness Adventures](#)
 - Our Leadership Adventures, conducted for the past 43 years, are designed for high school students seeking more of a challenge like summiting Mount Rainier or the Grand Teton. These adventures offer an extended wilderness experience and are designed to give the participants a greater role in daily decision making.
- [West Coast Connection](#)
 - Visit stunning natural wonders, explore exciting cities, find deeper meaning in volunteer work, improve your Spanish language skills, or participate in awesome adrenaline-pumping activities. And that's just the beginning of your journey with us!
